Issue 203 UK & INTERNATIONAL MC CATALOGUE

THE WORLD'S LARGEST RANGE OF PREMIUM REPLACEMENT MOTORCYCLE BRAKES

40 YEARS of industry-leading success

EBC® BRAKES

Brake pads, discs, braided stainless brake lines, clutches and much more, with four manufacturing plants in the UK and USA producing over 10 million components each year.

www.ebcbrakes.com

Welcome to your new catalogue from EBC Brakes with all of the new brakes and clutches you need for your customers.

EBC is celebrating it's 40th year in business in the motorcycle aftermarket, we can only thank again our thousands of loyal customers for their support through the years. Carrying EBC as an alternative product line to genuine parts continues to make good commercial sense, increases sales and offers a truly long-term solution to stocking aftermarket parts.

Our range of products for US built motorcycles has been updated and included once again in this catalogue.

2019 saw a change in the way that we produce and distribute our catalogues. This is a full catalogue, in 2023 we will produce an "update only" catalogue which will supplement this edition. An up to date full catalogue will always be available on our website on the catalogues page.

Once again **THANK YOU** and have a great 2022 selling season.

CATALOGUE COPYRIGHT

This catalogue forms a copyright under international law.

This includes, but is not limited to, the series of brake pad, brake shoe, clutch and brake disc design numbers with or without the prefixes FA, EPFA, GPFA, GPFAX, MXS, or suffixes R, HH, TT, SV. These design numbers, prefixes and suffixes form the toils of many years of work and set EBC products apart and are easily distinguished from other manufacturers brands or numbers.

Any copying, imitation, in full or in part, by any third party, will result in prosecution to the fullest extent of the law.

Also included within this catalogue are registered or applied for individual trademarks, such as:

- EBC
- Double-H
- Pro-lite
- SD-System
- Dirt Racer
- Street Racer
- DRC
- DRCF
- SRC
- SRK
- SV Series
- VLD Series
- VR Series
- UTVX
- SXR

All of the above are active trademarks and/or brands used by EBC Brakes licencees.

MOTORCYCLE BRAKE PADS

Aramid Fiber Organic FA Series Pads — "TT" Pads

FA series organic brake pads will deliver fingertip stopping power and superb brake feel and control, the preferred choice for many sportbike riders. This compound has low disc attack characteristics and gives medium lifetime.

"TT" series moto-x sport and enduro pads, cool running based pad compound for sport use in moto-x and ATV applications. For mud, sand or wet conditions requiring longer life, use our sintered range below.

Double-H™ Pads — MXS Series Pads

FA series with HH suffix, EBC's American-made ultra high friction Double-H™ sintered copper alloy brake pads for maximum stopping power and lifetime. With stainless steel radiator plates to reduce heat transfer and double compact for wider pads.

"MXS" moto-x race pads, ultra high friction American-made sintered copper alloy with diamond ground surface finish for fast brake-in. With external hex drive slider pins, these pads are suitable for all fast moto-x riding.

"R" Series Pads — Semi-Sintered V-PAD™

"R" series American-made sintered copper alloy ATV and Moto-X replacement pads for sport and utility off road riding.

This semi-sintered brake pad combines the highest qualities of an organic brake pad with the endurance of a sintered equivalent brake pad. Designed for the heavy cruiser/streetbike market as a replacement brake pad. Can replace both sintered and organic pads.

Part numbers, prefixes, suffixes, photos and illustrations shown in this catalogue are trademarks and/or copyrights of EBC Brakes or the trademark owner A C Freeman Investments Ltd and use without express written permission of the owners is punishable by law.

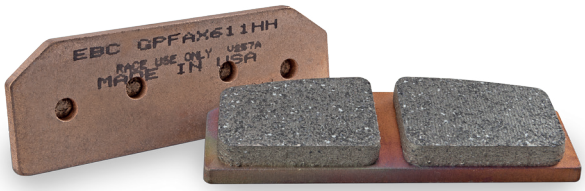

MOTORCYCLE BRAKE PADS

EPFA Trackday Pads

EPFA trackday pads give long life in street use with improved fade resistance and heat cycling plus improved noise characteristics, making this a great pad for heavy streetbikes and cruisers as well as faster superbikes. Great for intermittent track use.

GPFAX Race Series Pads

GPFAX vacuum sintered ultra-high friction race pads are for sportbike asphalt racing and have been refined over the years to deliver one of the best brake race materials ever made.
See page xii for full details.

SFA Organic Scooter Pads

A superb general replacement pad for urban use on scooter mofas, mokicks and mopeds. Made using aramid fibres, these pads give above average lifetime, reduced disc wear characteristics and offer great value for money.

SFAC Carbon Scooter Pads

A high durability carbon organic compound giving higher pad performance and longer life for the mid to heavy scooter range. UK-made using 30% copper powder by weight with carbon granules.

SFA-HH Sintered Scooter Pads

These American-made sintered scooter pads are long lasting with high performance HH rated stopping power for perfect braking – wet or dry. The HH pads target the faster and heavier scooter market and work well with stainless steel brake discs.

SXR Series Pads

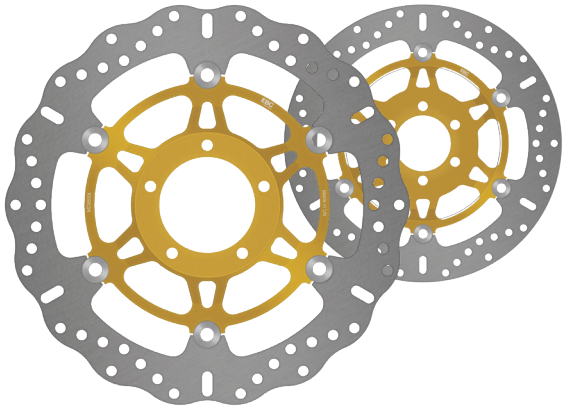

SXR pads are sintered in a custom designed furnace to produce a premium blend of off-road race material that delivers high friction and heat stability. Available for all popular SXS models.

Part numbers, prefixes, suffixes, photos and illustrations shown in this catalogue are trademarks and/or copyrights of EBC Brakes or the trademark owner A C Freeman Investments Ltd and use without express written permission of the owners is punishable by law.

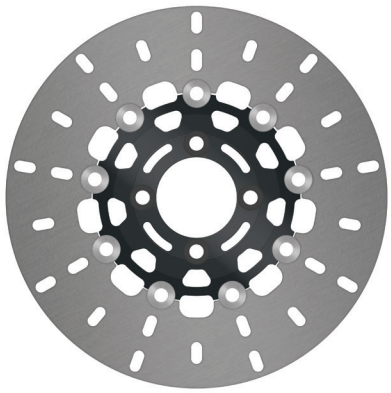

MOTORCYCLE BRAKE DISCS

X and XC Series Sportbike Discs

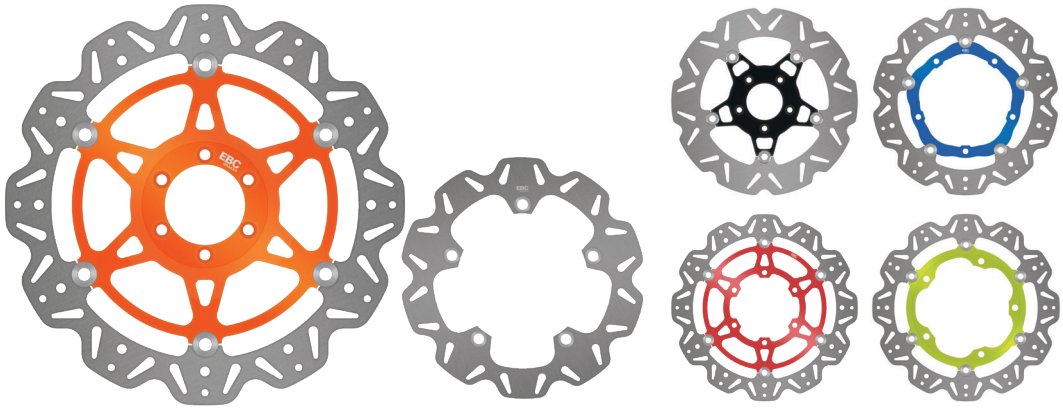

X and XC series discs feature mill hard stainless steel high friction rotor blades for maximum brake effect and are direct size for size replacements for OEM discs. These lightweight discs feature our patented SD square drive button system.

VMD Classic Style Discs

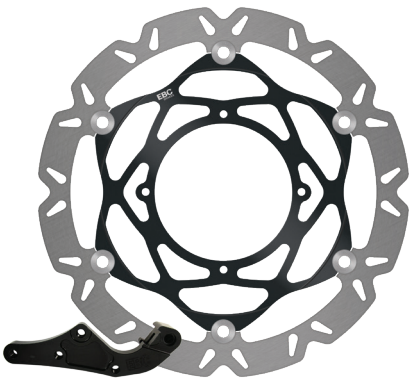

These lightweight, black anodised vintage discs are new to our range. The vintage fitment benefits from billet aluminium construction; lightweight, less unsprung weight enables better handling and stopping power. Perfect for the Café racer scene.

Sportbike VR Series Discs

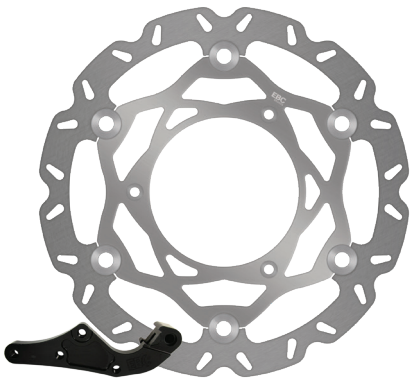

Vee profile lightweight discs with alloy hubs and ground stainless steel rotor blades for fast street bikes. Choose from black or coloured hub options as shown above. To order prefix with VR and suffix with chosen colour BLK, RED, BLU, GRN, GLD.
For rear discs just the VR number.

Supermoto Brake Disc

SMX 320mm rotor with vee contour design upgrade kits complete with caliper relocation bracket.

Oversize MX Discs

250 or 280mm motocross oversize disc kit complete with relocation brackets for improved brake power and control with vee contour design disc.

Part numbers, prefixes, suffixes, photos and illustrations shown in this catalogue are trademarks and/or copyrights of EBC Brakes or the trademark owner A C Freeman Investments Ltd and use without express written permission of the owners is punishable by law.

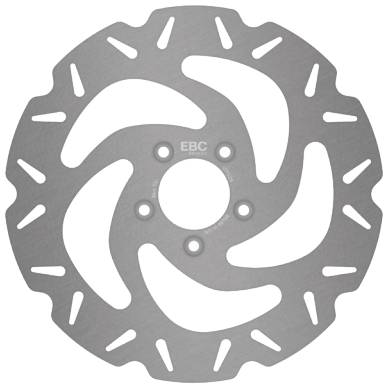

MOTORCYCLE BRAKE DISCS

MD Series Stainless Scooter Discs

Made from mill hard rolled steel, these discs are machined to match the original units, mechanically de-stressed to avoid rotor distortion, surface finished for precise smoothness.

VR Series Stainless Scooter Discs

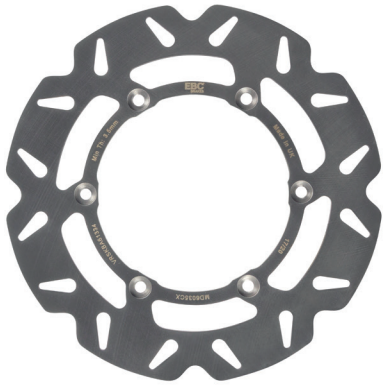

Made in the UK using German mill rolled heat treated and precision ground stainless steel, the new VR series stainless profiled scooter sport discs are the lightest and best looking on the market and can be used with any type of brake pad.

UTVX Rotors for ATV/Quad/4x4

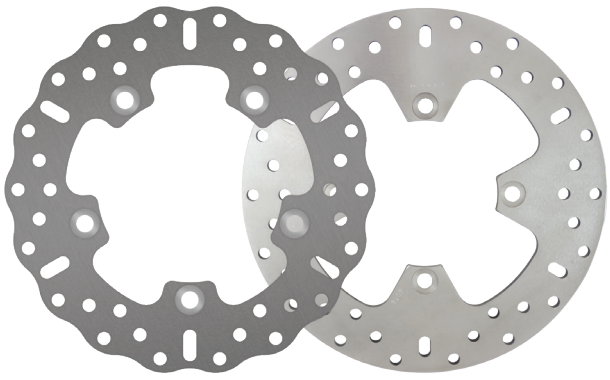

This new design greatly improves brake performance. Made in our British manufacturing facility using durable, tough German mill rolled stainless steel, heat treated and diamond ground to give great braking for less than OEM prices.

CX Extreme Off Road Discs

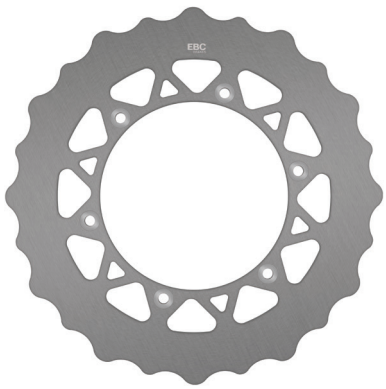

CX Extreme self-cleaning lightweight stainless discs are a size-for-size replacement/upgrade for front and rear fitment on all modern motocross machines.

Rear Brake Discs

Made from stainless steel and available in full circle or contoured profile, suitable for performance street use or racing with new lightweight hole pattern construction.

Enduro Rear Brake Discs

Made in the UK from German milled rolled, heat treated stainless steel. These discs have no drill pattern in the pad track which improves pad wear, prevents mud and debris being dragged between the pad and disc. Ideal for enduro competition in all conditions, use with EBC Brakes sintered MXS or R material brake pads.

Part numbers, prefixes, suffixes, photos and illustrations shown in this catalogue are trademarks and/or copyrights of EBC Brakes or the trademark owner A C Freeman Investments Ltd and use without express written permission of the owners is punishable by law.

MOTORCYCLE CLUTCH OPTIONS

CK/CKF Series Clutch Kits

CK complete engine sets of stack height controlled friction plates feature the EBC Brakes' unique alloy particle impregnated clutch facings that prevent burn up or slippage. CKF carbon fibre impregnated kits for ATV and moto-x use are built to last longer, grip and feel better than cork kits.

DRC/DRCF Series Clutch Kits

DRC is the ultimate clutch rebuild kit for your ATV and Moto-X machine. The DRCF kit swaps the stock type cork friction plates for a set of severe duty carbon fibre lined friction plates for better heat and wear abilities.

SRC/SRK Series Clutch Kits

SRC is an aramid fibre lined plate set with heavy duty clutch springs (diaphragm type springs included where required). Ideal for heavy sport bikes, faster riders and production based race use. SRK series includes a full engine set of aramid lined friction plates with clutch springs and steel separator plates.

CSK Coil & Diaphragm Clutch Kits

CSK sets include either coiled springs or diaphragm springs where appropriate. Coil springs are spiral wound with 4 to 8 pieces per set, made from heat treated high carbon steel delivering the right tension for your bike. Diaphragm springs are dish shaped flat steel pressure rings.

Clutch Removal Tools

NOW MADE IN STAINLESS STEEL

Made in the UK by EBC Brakes, these laser cut clutch tools make clutch removal, loosening of the drive shaft bolts and re-tightening a breeze, without any fear of damage to your expensive clutch basket. Tools can be extended to create more leverage if required with any simple workshop tool or tube. EBC Brakes produce a clutch tool for almost every clutch plate design known.

Part numbers, prefixes, suffixes, photos and illustrations shown in this catalogue are trademarks and/or copyrights of EBC Brakes or the trademark owner A C Freeman Investments Ltd and use without express written permission of the owners is punishable by law.

Upgrade to EBC High Performance Brake Lines

What makes EBC brake lines the best quality?

- Factory built (not 'workshop made' from components)
- 100% pressure tested after assembly
- Best fitment guaranteed
- Identical routing as originals

EBC brake lines are manufactured from the highest quality materials, with braided stainless steel PTFE hose and grade 303 stainless steel precision machined fittings. EBC do not use mild steel or aluminium components in our brake lines, instead we choose stainless steel for every component, as this material offers maximum quality in terms of strength and corrosion resistance. EBC brake lines are designed and built to last, that's why every line is offered with a lifetime warranty.

As an absolute guarantee of quality, EBC brake lines manufactured to Federal Motor Vehicle Safety Standards (FMVSS-106) and have the following approvals:
DOT, TÜV, ISO9001, DEKRA, ARAI, CCC AND ADR.

These pads bed in fast and deliver extremely high friction linear performance in track use. GPFAX pads are high friction but highly stable in stop. This means pads are powerful and predictable time after time when the brake is applied in race use. The “in-stop” friction fall off is almost zero and can hardly be noticed at the lever meaning the brakes offer superb control. The EBC dyno is set to duplicate race conditions at the Road America race track and represents a true simulation of race brake demand. The number of race teams using GPFAX grows annually and for 2021 the exact same formulation developed through 2019 is used again.

EBC pads are developed in our own laboratory and tested using this race track simulator dynamometer to guarantee perfection before being thoroughly field tested on dozens of race teams.

Making Precision Pilot Jets

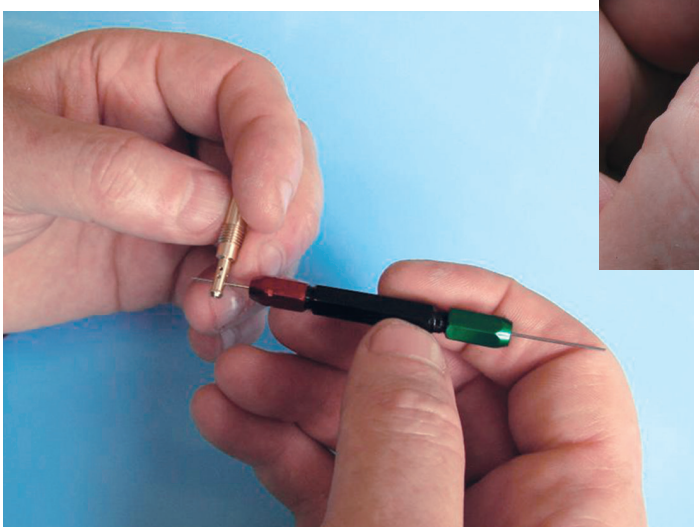

Everyone knows how sensitive an engine is to pilot jets in the acceleration stages from 1000 to 3500 rpm and getting fuel mixture right in this area is critical. For this reason jets have to be perfectly accurate in their marked size and incremental size steps. EBC Brakes sister company A-BAX Precision Engineering Ltd in the UK has purchased the most accurate machine on the planet for this work shown below. A-BAX Precision Engineering Ltd pilot jets are precise, clearly marked and reliably gauged using pin gauges, accurate to one tenth of a thousandth of an inch, you can rely on their accuracy.

Part numbers, prefixes, suffixes, photos and illustrations shown in this catalogue are trademarks and/or copyrights of EBC Brakes or the trademark owner A C Freeman Investments Ltd and use without express written permission of the owners is punishable by law.

S&B FILTERS

S&B FILTERS
www.sbfilters.com

Made in the USA, S&B Custom Filters are a great choice for all types of carburettor and feature a special man made gauze called "Remay" made by Dupont® which has the benefit of perfectly uniform hole patterns. This enables the S&B filter to catch dust better than an oil soaked filter and to be run DRY. Oiled filters require regular washing and relube which plays havoc with carburettor balance. Available in parallel or cone type design, with high lustre chrome end caps.

BAFFLE PAC

BAFFLE-PAC-Silencer Glass. PART NO. BP001

This material is labelled and conforms to BSAU 193T2. BEWARE of distributors selling cheaper roofing felt in its place. Repackable Tailpipes as the name implies, require regular cleaning and repacking with BSAU approved "SILENCER GLASS" such as Winning BAFFLE PAC. Failure to maintain tailpipes in such a way will lead to clogging of the silencer wool and raised noise output, together with reduced engine performance. Freeman Automotive (nor Dealers) are responsible for noise offences due to lack of maintenance as described above. "Recommended repacking period is every 3000 miles on two-strokes or when bike becomes noisy if sooner".

BRAKE FLUID

DOT 4 – A refined specification polyglycol fluid as fitted to most faster street bikes now produced.
DOT 5 – Silicone fluid as used in Harley Davidson Motorcycles and many special High Performance Brake systems.
NEW BF307 – Highly refined Dot 4 Brake fluid, ideal for Racing or High performance Road bikes. Can be used in all systems specifying Dot 3 or Dot 4 but **NOT** with (Dot 5) silicone fluids.

CAUTION – Please check carefully the type of brake fluid used in your system.
Adding the incorrect fluids could cause major brake failure.
DO NOT EVER mix glycol fluids (DOT3, DOT4 or BF307) with Dot5 Silicone.

EBC Brake Fluid is available in DOT 4 or DOT 5 (Silicone) Grades or BF307 Race Grade.

TO ORDER USE THESE NUMBERS		
DOT 4 (Six Pack).....	**BF 004**	**250ml Bottle**
DOT 5 (Six Pack) (Silicone)	**BF 005**	**250ml Bottle**
BF 307 (Six Pack).....	**BF 307**	**500ml Bottle**

BRAKE CALIPER LUBE

These sachets of dedicated, high viscosity greases are perfect for all of your customers' brake service needs. Always use sparingly on caliper slider pins and rails, but do NOT get near the pad surface and do NOT use as anti-squeal as it will not help at all. Each sachet contains 5 grammes of grease.

TO ORDER USE THESE NUMBERS	
Ten Sachets	LUBE010
Fifty Sachets.....	LUBE050

GALINDO / BAJA GRIPS

4 1/2" GALINDO SUPERBIKE GRIPS

Made in USA with KRATON G material. Without doubt the highest quality grip sold worldwide for street bikes. All below colours at 4½" with separate spacer ring to accommodate 5" throttle units. Complete with heavy plastic bar end plugs and new high visual "Clamshell" packaging.

COLOUR	PART NO.
BLACK	GX001
RED	GX002
BLUE	GX003

BAJA FOAM GRIPS

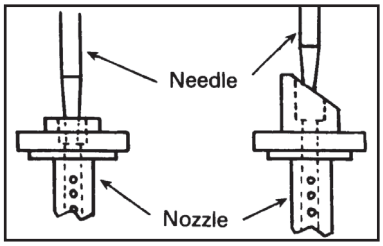

BAJA Foam grips made in USA with "reticulated" foam closed cell construction. Sounds fancy, but what it means is Baja foam grips do not "sponge" up water as will other cheap open cell foam rubber units. Complete with bar end caps and mounting glue.

COLOUR	PART NO.
BLACK	BG001
RED	BG002
BLUE	BG003

LEDAR NOZZLES

LEDAR POWER NOZZLES 2 STROKE DETAILS

- Simply change standard OE Nozzle for Immediate Power Boost
- More power through the range
- Better carburation, improved specific fuel consumption
- Less Unburnt Hydro Carbons means cleaner exhaust and less pollution.

NOZZLE No.	FITMENT
LN43	RD 125 LC Mk 1/Mk 1 2 (Not YPVS), DT 125 MX
LN44	DT 125 LC/RXS 100
LN45	RD 80 LC
LN46	MBX 125/MBX 50
LN59	AR 50/AE 50/AR 80
LN61	AR 125 LC
LN63	RD 125 LC Mk 3 (YPVS)
LN66	GP 100
LN66A	GP 100 Big Bore 125 Conversion
LN67	RG 125
LN68	NS 125 FH/FG/RK

RACING REEDS

hy-tech racing reeds

See page 870 for applications

STREET – CW38 fibre still ideal for smaller high revving two strokes but new for track or road Hy-Tech **CARBON FIBRE** reeds, for these designs suffix regular part No with "CF" to order

DIRT – Two stage system with stiffer top reed and standard lower reed gives wider power band + longer reed life on upper reed block position

OR – NEW CF Carbon Fibre series now available.
