Introducing the NEW

EXTRAINTY

ED+ Brake Pad Range

Better brakes at half the price of OEM parts – the new ED+ range from EBC Brakes is designed to stop pick-up trucks, SUVs, 4x4s and Jeeps™ faster in conditions involving higher speeds and heavier loads.

Prestige SUVs can benefit from the noise-free extra stopping power of the ED+ range, which offers quiet braking for tens of thousands of miles.

All pick-up trucks will feel an impressive boost to stopping power with these 'GF'-rated pads.

Need more stopping power on your TRX? These high-friction brake pads will help.

Key features:

- British-made premium pad
- Higher friction Lower noise Longest life
- Made on NUCAP NRS[™] system backing plates
- Red Brake-In[™] bed-in coating applied
- Shorter stopping distances

Fitting oversized tyres?

Fitting oversized tyres reduces brake effect, requiring more friction on the brake pad to compensate. And these pads do exactly that - providing more grip when it's needed the most!

STARTS IN GREAT BRITAIN... STOPS ALL OVER THE WORLD
