MANUFACTURERS OF THE WORLDS LARGEST RANGE OF DISC BRAKES FOR ANY VEHICLE

CAD-CAM/CNC Machinist

We are seeking a CAD-CAM/CNC Machinist to work across our business, based in Northampton. Suitable candidates will have broad CNC machining expertise with steel and aluminum, good knowledge of FANUC controls and able to manage multiple tasks.

The post holder will be responsible for creating 2D/3D drawings and programs using AutoCAD/EZCAM and Solid Works/Solid CAM, performing machine setups, operating or starting an operator and checking their work.

Candidates will be expected to demonstrate their skills during a trade test at interview, so therefore it is imperative that candidates possess experience of programming FANUC controls.

Skills and experience:

- Relevant drawing and programming software package experience;
- Have a good understanding of best tools for the job and speeds and feeds for different tools;
- Work under their own initiative, forward thinking and proactive;
- Work well individually and with our team;
- Strong work ethic;
- Good communication skills;
- Good time management and ability to complete tasks;
- Ability to work unsupervised within a small team environment;
- Experience in CNC turning operations is an added bonus.

We can be reasonably flexible with hours, Monday-Friday (no shift patterns) and we are offering a competitive package.
