MANUFACTURERS OF THE WORLDS LARGEST RANGE OF DISC BRAKES FOR ANY VEHICLE

## Job Description – Maintenance Supervisor

### SUMMARY

We are currently looking for a Maintenance Supervisor for machinery maintenance, repairs and general facilities maintenance who has a hands-on approach to all aspects of this role.

The successful applicant will be responsible for undertaking activities on a diverse range of machinery and mechanical equipment.

This role also has responsibility to ensure the buildings and surrounding grounds are kept in good repair, with emphasis on first class workmanship and an eye for detail, whilst ensuring conformity with health and safety regulations for staff and the Company.

Suitable candidates need to be Time Served or hold a Recognised Engineering / Maintenance Qualification, preferably from a similar manufacturing background.

Our current machinery includes presses, tumblers, CNC, lathes, grinders, pillar drills, shot-blasters, skin packaging and cutters.

### PRIMARY RESPONSIBILITIES

- Ensure all maintenance activities are carried out safely and securely, for both employees and contractors and in line with company policies and procedures, and current health and safety legislation;
- Be proactive, with regard to maintaining site machinery;
- Planning preventative maintenance schedules;
- Advise of any safety issues that need action and ensure that anything requiring urgent action is dealt with immediately;
- Carry out routine maintenance work and respond to equipment faults/breakdowns as they occur;
- Negotiate prices for maintenance/repair work.

### KNOWLEDGE AND SKILLS

- Time served multi-skilled Engineer;
- Ability to work on own initiative and demonstrate good problem solving and decision-making skills;
- Enthusiastic and flexible in approach and problem solving.

### WORKING CONDITIONS

Working conditions are normal for a brake manufacturing and distribution centre, which includes packing and shipping departments, rotor machining departments with grinding machinery and separate press works facility with numerous presses up to 250 tonnes capacity and ancillary equipment.

Full time position, 40.5 hour per week. Monday – Thursday 08:30 – 17:30 and Friday 08:30 – 15:30 (30 minutes for lunch each day). Some weekend or out of hours work may be needed.

Reporting to the Group CEO.

### BENEFITS

- Free on-site, secure parking;
- Staff discount on products;
- Uniform and PPE supplied;
- Long Service Holiday Award Scheme.
