MANUFACTURERS OF THE WORLDS LARGEST RANGE OF DISC BRAKES FOR ANY VEHICLE

Job Description - Production Operative

SUMMARY

Established in 1979, EBC Brakes is a privately-owned company and a world leader in the manufacture of sport, high performance and race brake components for automotive, motorcycle and even mountain bikes with a large range of trademarked products. EBC Brakes is proud to be able to say that 100% of its brake pad range is produced in its own factories in the UK and USA with 100% of its motorcycle brake discs/rotors being produced in its UK facility. A huge proportion of its automotive brake discs are also produced in the UK and USA.

As part of this team you will be working closely with colleagues in various stages of production to manufacture motorcycle and automotive brake disc components to high standards of quality and efficiency.

PRIMARY RESPONSIBILITIES

1. Operate various equipment and machinery – lathes, pillar drill, levellers, finishing machine, surface grinders, shot-blaster, punch press, etc. - producing parts in accordance with the relevant drawings and specifications
2. Maximise daily output in-line with targets, producing parts to set priorities to ensure high customer service levels are achieved
3. Count and inspect items, as per the details shown on the Works Order
4. Perform physical stock movements; does involve some heavy lifting
5. Preparing items for collection/delivery
6. Maintaining the general tidiness of the Production area
7. Compliance with H&S and Quality Control standards
8. Complete paperwork showing daily production
9. Identify process improvement opportunities
10. Any other duties as issued by the Disc Engineering Manager or Production Planners.

KNOWLEDGE AND SKILLS

1. Highly motivated, must have a strong desire to deliver against targets and to a high standard
2. Previous production, manufacturing or engineering experience preferred
3. Thorough, accurate and careful
4. Must be hard working and able to work in a team, as well as independently
5. Flexible working attitude, overtime will be required in busy periods
6. Ability to work independently applying common processes and standards
7. Must be able to form good working relationships at all levels of the organisation
8. Must be flexible and supportive of colleagues
9. Good housekeeping practices in accordance with H&S and Quality Control
10. Ability to work to procedures and follow instructions
11. Ability to read, write, communicate and comprehend written and verbal instructions in English
12. Experience in manual handling.
